Space Activity Badge

2020-2021

Activity Book

Name: _____

Group: _____

Welcome to the 2020-2021 Beavers Space Badge Activity Book.

As we begin to return to the new normal, this activity book is designed to support your child's learning and development within their Beaver Colony, to continue to learn new things and to earn badges.

Each of the activities in this pack meets the criteria of the badge requirements, therefore it is important that you complete all parts of the criteria otherwise you will not have met the badge requirements.

The Space Activity Badge aims to explore your child's imagination and their ability to express their imagination through observation, recognition, and knowledge. In this booklet there are four tasks that will help your child achieve their Space Activity Badge, while more activities can be found on the Scouts UK website link below:

www.scouts.org.uk/beavers/activity-badges/space/

Once you have completed each badge section you can either:

- a) Take a photo of each page of the completed task and send it to your local Beaver leader for authentication.
- b) With the agreement of your Beaver leader return the completed booklet to them (under local arrangements).

Your Beaver Leaders contact details are below:

Beaver Leader Name: _____

Email address: _____

Contact details: _____

Should you require any further details, please contact your Development Team at:

Beaver Space Activity Badge

There are 4 tasks you need to complete to achieve your Space Activity Badge Here is the 1st.

Point out some of the things you can see in the night sky. It could be stars, the moon or planets.

Can you draw something that you might find in space or something you observed?
Write a short sentence about what you have drawn.

Beaver Space Activity Badge

There are 4 tasks you need to complete to achieve your Space Activity Badge Here is the 2nd.

Point out and name at least one constellation you can see. You draw it below?

Constellation Name:

Beaver Space Activity Badge

There are 4 tasks you need to complete to achieve your Space Activity Badge Here is the 3rd.

Name the eight planets in our solar system and draw/make a model of one of the planets.

You could use fruit from a fruit bowl, modelling clay or even different sized stones to help you make your model.

To help you with this task, have a look at www.scouts.org.uk/activities/solar-sorting/ and www.scouts.org.uk/activities/fruit-salad-solar-system/ and definitely check out this kids friendly video

Beaver Space Activity Badge

There are 4 tasks you need to complete to achieve your Space Activity Badge Here is the 4th and final task.

Find out about a space mission, an astronaut or a planet in our solar system, and write or draw about it:

Did you know:

- Spacecraft have visited all the known planets in our solar system.
- One million Earths could fit inside the sun – and the sun is considered an average-size star.
- There are more stars in the universe than grains of sand on all the beaches on Earth. That's at least a billion trillion!

A large, empty rectangular box with a black border, intended for the student to write or draw about their chosen space topic.

You have now completed all four requirements of the Beaver Space Activity Badge

Please return your completed activity pack (by photo or agreement) to your local group leader for authentication:
